

MS-700

Managing Microsoft Teams

Plan and Configure a Microsoft Teams Environment

Question Set 1

QUESTION 1

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

Your company has a Microsoft 365 subscription.

You plan to configure the environment to allow external users to collaborate in Microsoft Teams by using guest access.

The company implements a new security policy that has the following requirements:

- Only guest users from specific domains must be allowed to connect to collaborate by using Microsoft Teams.
- Guest users must be prevented from inviting other guests.

You need to recommend a solution to meet the security policy requirements.

Solution: From the Microsoft Teams admin center, you modify the global meeting policy.

Does this meet the goal?

- A. Yes
- B. No

Correct Answer: B

Section: (none)

Explanation

QUESTION 2

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

Your company has a Microsoft 365 subscription.

You plan to configure the environment to allow external users to collaborate in Microsoft Teams by using guest access.

The company implements a new security policy that has the following requirements:

- Only guest users from specific domains must be allowed to connect to collaborate by using Microsoft Teams.
- Guest users must be prevented from inviting other guests.

You need to recommend a solution to meet the security policy requirements.

Solution: From PowerShell, you run the `New-AzureADPolicy` and `Set-AzureADPolicy` cmdlets.

Does this meet the goal?

- A. Yes
- B. No

Correct Answer: B

Section: (none)

Explanation

Explanation/Reference:

QUESTION 3

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

Your company has a Microsoft 365 subscription.

You plan to configure the environment to allow external users to collaborate in Microsoft Teams by using guest access.

The company implements a new security policy that has the following requirements:

- Only guest users from specific domains must be allowed to connect to collaborate by using Microsoft Teams.
- Guest users must be prevented from inviting other guests.

You need to recommend a solution to meet the security policy requirements.

Solution: From the Azure Active Directory, you modify the External collaboration settings.

Does this meet the goal?

- A. Yes
- B. No

Correct Answer: A

Section: (none)

Explanation

QUESTION 4

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

Your company has a Microsoft 365 subscription that uses an Azure Active Directory (Azure AD) tenant named contoso.com.

You need to prevent guest users in the tenant from using cameras during Microsoft Teams meetings.

Solution: From the Azure Active Directory admin center, you modify the External collaboration settings.

Does this meet the goal?

- A. Yes
- B. No

Correct Answer: B

Section: (none)

Explanation

Explanation/Reference:

Explanation:

Guest access in Teams allows people outside your organization to access teams and channels. When you turn on Guest Access, you can turn on or off features guests users can or can't use.

QUESTION 7

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

Your company has a Microsoft 365 subscription.

You need to prevent a user named User1 from permanently deleting private chats in Microsoft Teams.

Solution: You place the mailbox of User1 on Litigation Hold.

Does this meet the goal?

- A. Yes
- B. No

Correct Answer: A

Section: (none)

Explanation

Explanation/Reference:

QUESTION 8

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

Your company has a Microsoft 365 subscription.

You need to prevent a user named User1 from permanently deleting private chats in Microsoft Teams.

Solution: You create an In-Place Hold for the Microsoft SharePoint site used by Microsoft Team.

Does this meet the goal?

- A. Yes
- B. No

Correct Answer: B

Section: (none)

Explanation

Explanation/Reference:

QUESTION 9

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

Your company has a Microsoft 365 subscription.

You need to prevent a user named User1 from permanently deleting private chats in Microsoft Teams.

Solution: You place the group mailboxes used by Microsoft Teams on Litigation Hold.

Does this meet the goal?

- A. Yes
- B. No

Correct Answer: B

Section: (none)

Explanation

Explanation/Reference:

QUESTION 10

You are a Microsoft Teams administrator for your company.

All the teams used by the company's legal department must meet the following compliance requirements:

- Each team must expire 365 days after it is created.
- All team content must be deleted when the team expires.
- An administrator must be able to restore deleted team content for 30 days.

What should you do?

- A. From the Microsoft Teams admin center, modify the teams policy.
- B. From PowerShell, run the `New-AzureADMSGGroupLifecyclePolicy` cmdlet.
- C. From the Security & Compliance admin center, create a data loss prevention (DLP) policy.
- D. From the Microsoft 365 admin center, modify the Office 365 group settings.

Correct Answer: B

Section: (none)

Explanation

Explanation/Reference:

Reference:

<https://docs.microsoft.com/en-us/azure/active-directory/users-groups-roles/groups-lifecycle>

<https://docs.microsoft.com/en-us/powershell/module/azuread/new-azureadmsgrouplifecyclepolicy?view=azureadps-2.0>

QUESTION 11

Your company has a Microsoft 365 subscription that contains 20 teams.

You need to ensure that a team named Team1 is identified as Highly Confidential in the Microsoft Teams client.

What should you use?

- A. a teams app setup policy in the Microsoft Teams admin center
- B. a sensitivity label in the Security & Compliance admin center
- C. a supervision policy in the Security & Compliance admin center
- D. a teams policy in the Microsoft Teams admin center

Correct Answer: B

Section: (none)

Explanation

Explanation/Reference:

QUESTION 12

Your company has a Microsoft 365 subscription.

You attempt to review call quality by location.

When you sign in to the Microsoft Call Quality Dashboard, you discover that no locations are defined.

You need to ensure that all the call quality information in the dashboard is segmented by location.

What should you do first?

- A. From the Microsoft Teams admin center, configure reporting labels.
- B. Run the Network Testing Companion by using administrator privileges.
- C. Run the PowerShell cmdlet `Set-CsQoEConfiguration`.
- D. From the Microsoft Teams admin center, run the Network Planner.

Correct Answer: A

Section: (none)

QUESTION 14

Your company uses Microsoft Teams.

The company has the departments and teams shown in the following table.

| Department name | Team name |
|--------------------------|-----------|
| Sales | Team1 |
| Research and Development | Team2 |
| Finance | Team3 |

You need to recommend a solution to prevent the users in each department from inviting users from other departments to their team.

What should you include in the recommendation?

- A. app permission policies
- B. Azure Information Protection
- C. supervision policies
- D. information barrier policies

Correct Answer: D

Section: (none)

Explanation

Explanation/Reference:

QUESTION 15

Your company has a Microsoft 365 E5 subscription.

The company uses Microsoft Skype for Business Online and plans to upgrade to Microsoft Teams.

The network contains the following devices:

- 100 computers that run Windows 10
- 50 Android devices

- 50 iPhone devices

All the devices have the Skype for Business app installed.

You need to deploy Microsoft Teams to all the devices.

What should you do?

- A. From the Microsoft Teams admin center, set Download the Teams app in the background for Skype for Business users to **On**.
- B. Create a Group Policy Object (GPO) that contains an app package, and then link the GPO.
- C. From the Microsoft Teams admin center, create an app setup policy that includes the Microsoft Teams app, and then assign the policy to all users.
- D. From Microsoft Intune, push Microsoft Teams to all the devices.

Correct Answer: A

Section: (none)

Explanation

Explanation/Reference:

QUESTION 16

Your company has a Microsoft 365 subscription that contains several teams.

The company's security policy states that an administrator must be notified when a new team is created by using the Build a team from scratch option.

You need to configure the environment to meet the security policy requirement.

What should you do?

- A. From the Security & Compliance admin center, create a supervision policy.
- B. From the Security & Compliance admin center, create an alert policy.
- C. From the Azure Active Directory admin center, create a protection notification.
- D. From the Microsoft Teams admin center, modify the global teams policy.

Correct Answer: B

Section: (none)

Explanation

Explanation/Reference:

QUESTION 17

Users report poor quality during Microsoft Teams audio conferences.

You run a network trace during an audio conference from a user's device as shown in the following exhibit.

Frame Details:

X

| |
|---|
| Checksum: 0 (0x0) |
| SourceAddress: 10.10.10.110 |
| DestinationAddress: 52.114.188.31 |
| U-Top: Flags=...A...., SrcPort=50008, DstPort=HTTPS(443), PayloadLen=0, |
| SrcPort: 50008 |
| DstPort: HTTPS(443) |
| SequenceNumber: 4077031237 (0xF3028F45) |
| E AcknowledgementNumber: 223214542 (0xD4DFD5E) |
| E B DataOffset: 00 (0x50) |
| O Flags: ...A |
| Window: 1025 (scale factor 0x0) = 262400 |
| Checksum: 0x524, Discarded |
| UrgentPointer: 0 (0x0) |

What causes the poor quality of the audio conferences?

- A. The source port range for audio is too narrow.
- B. The source port for audio is above 50,000.
- C. The UDP traffic is being limited.
- D. The TLS traffic is being limited.

Correct Answer: C

QUESTION 18

Your company has a Microsoft 365 subscription.

All users have a computer that runs Windows 10 and has Microsoft Teams installed.

A user reports the following issues:

- Users lose their connection during screen sharing.
- The user selection process takes too long to complete.
- The Microsoft Teams client crashes and restarts automatically.

You need to view the Microsoft Teams debug logs to troubleshoot the issues.

What should you do?

- A. From the Microsoft Teams client, select **F1**. Open the ETL files in the **%Appdata%\Microsoft\Teams** folder.
- B. From the Microsoft Teams client, select **Ctrl+Alt+Shift+1**. Open the log files in the **%Userprofile%\Downloads** folder.
- C. From Event Viewer, open the Application log and filter the log for a keyword of MSTeams.
- D. Right-click the Microsoft Teams icon in the application tray, and then select **Get logs**. Open Logs.txt in the **%Appdata%\Microsoft\Teams** folder.

Correct Answer: B

Section: (none)

Explanation

QUESTION 19

HOTSPOT

You open the **Microsoft Call Quality Dashboard** as shown in the following exhibit.

All Audio Streams

This Report shows the monthly audio streams count, and poor ration for the last 7 months. There are no filters applied so the data reflects all the call data that was captured by the Service. Audio calls made over wireless and external networks can cause poor call rates to go up.

Edit Clone ...

Use the drop-down menus to select the answer choice that completes each statement based on the information presented in the graphic.

NOTE: Each correct selection is worth one point.

QUESTION 21

HOTSPOT

Your company plans to migrate to Microsoft Teams from Microsoft Skype for Business Online. The org-wide coexistence mode for Microsoft Teams is set to Teams Only.

The company has two named User1 and User2.

You need to implement a migration solution that meets the following requirements:

- User1 must be able to chat and create meetings by using Skype for Business only.

- User1 must be able to read and post messages by using Microsoft Teams channels.
- User2 must use Microsoft Teams only.

How should you complete the PowerShell command? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

QUESTION 31

Your company has a Microsoft 365 subscription.

All users have computers that run Windows 10. The computers are joined to Azure Active Directory (Azure AD) and enrolled in Microsoft Intune. All the users are standard users.

The company plans to start using Microsoft Teams.

You need to deploy the Microsoft Teams client to the computers.

What should you use?

- A. an Azure AD app registration
- B. a domain-based Group Policy Object (GPO)
- C. Azure App Service
- D. an app in Microsoft Intune

Correct Answer: D

QUESTION 32

DRAG DROP

Your company has a Microsoft 365 subscription.

You need to prevent guest users from creating or updating channels.

How should you complete the PowerShell script? To answer, drag the appropriate options to the correct targets. Each option may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Select and Place:

| Values | Answer Area |
|------------------|---|
| Get-AzureADGroup | Value Value -AllowGuestCreateUpdateChannels \$false |
| Get-AzureADUser | |
| Get-Team | |
| Set-AzureADGroup | |
| Set-AzureADUser | |
| Set-Team | |

Correct Answer:

| Values | Answer Area |
|------------------|---|
| Get-AzureADGroup | Get-Team Set-Team -AllowGuestCreateUpdateChannels \$false |
| Get-AzureADUser | |

Explanation

Explanation/Reference:

QUESTION 36

Your company deploys a Quality of Service (QoS) solution to its network.

You recently deployed Microsoft Teams for all users. Each user uses a domain-joined computer that runs Windows 10.

The users report poor audio quality when they use Microsoft Teams from the network.

You discover that the media traffic from Microsoft Teams is **NOT** processed by the QoS solution.

You need to ensure that all the media traffic is processed by the QoS solution.

Which two actions should you perform? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. From the Microsoft Teams admin center, set Insert Quality of Service (QoS) markers for real-time media traffic to **On**.
- B. From the Microsoft Teams client, select a certified Microsoft Teams audio device.

- C. From PowerShell, run the `Set-CsQoEConfiguration` cmdlet.
- D. From Group Policy Management, create a Group Policy Object (GPO) that contains the Policy-based QoS settings, and then link the GPO to the domain.
- E. From the Microsoft Teams admin center, turn on logging for the device configuration profile.

Correct Answer: AD

QUESTION 37

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

Your company has 10 offices in North America and Europe.

The company has 5,000 users.

You plan to deploy Microsoft Teams for all the users.

You run a pilot project for the planned deployment.

You need to identify the network packet loss from the pilot computers to Microsoft Teams during calls.

Solution: From the Microsoft Teams admin center, you review the Microsoft Call Quality Dashboard.

Does this meet the goal?

A. Yes

B. No

Correct Answer: A

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

Your company has a Microsoft 365 subscription.

You need to prevent a user named User1 from permanently deleting private chats in Microsoft Teams.

Solution: You create an In-Place Hold for the Microsoft OneDrive for Business site of User1.

Does this meet the goal?

- A. Yes
- B. No

Correct Answer: B

Section: (none)

Explanation

Explanation/Reference:

Explanation:

Private chats are stored in user mailboxes, not on OneDrive.

QUESTION 43

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

Your company has a Microsoft 365 subscription and a Virtual Desktop Infrastructure (VDI) solution.

The company's Microsoft Teams upgrade policy is set to Teams only coexistence mode.

You deploy the Microsoft Installer (MSI) package for Microsoft Teams to the VDI solution.

Several months later, users of the VDI solution report that their workstation is missing several new Microsoft Teams features.

You need to ensure that the VDI solution users can use the new Microsoft Teams features.

Solution: From the Microsoft Teams admin center, you modify the Microsoft Teams upgrade policy.

Does this meet the goal?

- A. Yes
- B. No

Correct Answer: B

Section: (none)

QUESTION 53

HOTSPOT

You have a Microsoft 365 E5 subscription that uses Microsoft Teams and a hybrid deployment of Microsoft Skype for Business Server.

Coexistence mode in Microsoft Teams is set to **Islands**.

Coexistence mode is configured for three users named User1, User2, and User3 as shown in the following table.

| User | Coexistence mode |
|-------|---|
| User1 | Use Org-wide settings |
| User2 | Skype for Business with Teams collaboration |
| User3 | Teams only |

The Skype for Business user accounts are homed as shown in the following table.

| User | Homed |
|-------|-------------|
| User1 | On-premises |
| User2 | Online |
| User3 | Online |

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

| Statements | Yes | No |
|---|-----------------------|-----------------------|
| User3 must use the Microsoft Teams client to initiate a new chat with User1. | <input type="radio"/> | <input type="radio"/> |

QUESTION 54

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

Your company has 10 offices in North America and Europe.

The company has 5,000 users.

You plan to deploy Microsoft Teams for all the users.

You run a pilot project for the planned deployment.

You need to identify the network packet loss from the pilot computers to Microsoft Teams during calls.

Solution: From the Microsoft Teams admin center, you run the Network Planner.

Does this meet the goal?

A. Yes

B. No

Correct Answer: B

Section: (none)

Explanation

Explanation/Reference:

Plan and Configure a Microsoft Teams Environment

Testlet 2

Case study

This is a case study. **Case studies are not timed separately. You can use as much exam time as you would like to complete each case.** However, there may be additional case studies and sections on this exam. You must manage your time to ensure that you are able to complete all questions included on this exam in the time provided.

To answer the questions included in a case study, you will need to reference information that is provided in the case study. Case studies might contain exhibits and other resources that provide more information about the scenario that is described in the case study. Each question is independent of the other questions in this case study.

At the end of this case study, a review screen will appear. This screen allows you to review your answers and to make changes before you move to the next section of the exam. After you begin a new section, you cannot return to this section.

To start the case study

To display the first question in this case study, click the **Next** button. Use the buttons in the left pane to explore the content of the case study before you answer the questions. Clicking these buttons displays information such as business requirements, existing environment, and problem statements. If the case study has an **All Information** tab, note that the information displayed is identical to the information displayed on the subsequent tabs. When you are ready to answer a question, click the **Question** button to return to the question.

Overview

Contoso, Ltd. is a pharmaceutical company that has 3,000 users in offices across North America.

Existing Environment

Active Directory

The network contains an on-premises Active Directory domain. All user accounts are in departmental organizational units (OUs).

Microsoft Office 365

All users are assigned a Microsoft Office 365 E5 license and are enabled for the following services:

- Microsoft Yammer
- Microsoft Exchange Online
- Microsoft SharePoint Online
- Microsoft OneDrive for Business
- Azure Active Directory (Azure AD)
- Azure AD dynamic group membership

Microsoft Skype for Business

Contoso has an on-premises deployment of Microsoft Skype for Business Server 2015. All the latest cumulative updates are installed on all the servers. The following services are used in Skype for Business Server 2015:

- Meetings
- PSTN calling
- Instant messaging (IM)
- Federation to external companies

Departments

Contoso has the following departments:

- IT
- Sales
- Human resources (HR)
- Research and development (R&D)

All groups are created by using dynamic group membership that use the department attribute.

Requirements

Business Goals

Contoso identifies the following business goals:

- Migrate the maximum number of users to Microsoft Teams.
- Minimize administrative effort.

Device Requirements

Contoso identifies the following device requirements:

- Replace Skype for Business IP phones with Microsoft Teams phones.
- All Microsoft Teams phones must be set to lock automatically after 60 seconds.

Meeting and Live Event Requirements

Contoso identifies the following meeting and live event requirements:

- Requirement1: Guest users must be able to join live events.
- Requirement2: Guest users must always wait in a meeting lobby.
- Requirement3: Contoso users must always bypass the meeting lobby when they join meetings by using the Microsoft Teams client.
- Requirement4: After the upgrade to Microsoft Teams, all meetings must be scheduled by using Microsoft Teams.

Calling Requirements

Contoso identifies the following calling requirements:

- Migrate all existing auto attendants and response groups to Office 365.
- Minimize the on-premises PSTN infrastructure.

Technical Requirements

Guest users must be prevented from making private calls.

Security Requirements

Contoso has the following security requirements for the Microsoft Teams deployment:

- The number of ports allowed on the company's firewall must be limited.
- Team names must be prevented from containing the name of any products produced by Contoso.
- Users in the R&D group must be prevented from sending chat messages to users in other departments.
- To meet the company's compliance policy, users in the sales department must continue to use on-premises Skype for Business for IM and calling only.

Pilot Project

Contoso begins a pilot project for the upgrade to Microsoft Teams.

You identify the following issues during the pilot project:

- Microsoft Teams users report that they often receive continuous notifications from the Microsoft Teams client for 20 minutes.
- Two pilot users in the HR department report that they are not members of the HR team.

QUESTION 1

You need to configure the environment to meet the security requirements for the R&D group.

What should you do first?

- A. Start the information barrier policy application.
- B. Add an identity provider.
- C. Create two information barrier segments.
- D. Create one information barrier policy.

Correct Answer: C

Section: (none)

Explanation

Explanation/Reference:

Explanation:

Create information barrier segments first, then create information barrier policy based on the segments then start the information barrier application.

<https://docs.microsoft.com/en-us/microsoft-365/compliance/information-barriers-policies>

QUESTION 2

You need to configure the user accounts of the sales department users to meet the security requirements.

What should you do for each user?

- A. From the Microsoft Teams admin center, set the Microsoft Teams upgrade policy to **Skype for Business with Teams collaboration and meetings** coexistence mode.
- B. From PowerShell, run the `Grant-CsTeamsUpgradePolicy -PolicyName SfbWithTeamsCollab cmdlet`.
- C. From PowerShell, run the `Grant-CsTeamsUpgradePolicy -PolicyName Islands cmdlet`.
- D. From the Microsoft Teams admin center, set the Microsoft Teams upgrade policy to **Skype for Business only** coexistence mode.
- E. From PowerShell, run the `Grant-CsTeamsUpgradePolicy -PolicyName SfbWithTeamsCollabAndMeeting cmdlet`.

Correct Answer: E

Section: (none)

Explanation

Explanation/Reference:

Reference:

QUESTION 3

HOTSPOT

You need to recommend which inbound ports to the network and outbound ports to Office 365 must be allowed on the company's firewall after the planned upgrade. The solution must meet the security requirements.

Which inbound and outbound ports should you recommend? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Overview

General Overview

Litware, Inc. is an international manufacturing company that has 4,000 users. The company has the following four departments:

- IT
- HR
- R&D
- Sales

Physical Locations

Litware has two main offices. The offices are located in New York and London.

All offices connect to each other by using a WAN link. Each office connects directly to the Internet.

Existing Environment

All user accounts have an Azure Active Directory Premium Plan P1 license.

Litware has a Microsoft 365 subscription that has Office 365 Enterprise E3 licenses for all users. All the E3 products and services are enabled for each user.

Litware uses Microsoft Skype for Business Online.

Requirements

Planned Upgrade

Litware identifies the following requirements for a planned upgrade from Skype for Business Online to Microsoft Teams:

- Provide high quality audio, video, and online meeting experience for Microsoft Teams end users.
- Implement a data retention solution in Microsoft Teams.
- Minimize costs and administrative effort.

- Use the principle of least privilege.

For the sales department, Litware plans to create a team that dynamically updates its membership when users leave and join the department.

Department Upgrade Requirements

Litware plans to implement upgrade requirements for the departments as shown in the following table.

| Department name | Requirement |
|-----------------|--|
| Sales | Must use Microsoft Teams and Skype for Business. Must receive incoming chats and calls by using the same client that initiated the communication. |
| HR | Must use Microsoft Teams for collaboration and meetings. Must maintain Skype for Business as the preferred client for chat and calling. |
| IT and R&D | Must use only Microsoft Teams for chat, meetings, calling, and collaboration. |

Microsoft Teams Requirements

All teams must meet the following requirements:

- Only users in a partner company that uses a domain named fabrikam.com must be able to collaborate in teams by using guest accounts.
- Only users in the compliance department of Litware must be able to create teams.

Planned Network Tasks

Litware identifies the following network validation tasks:

- An administrator named Admin5 must be able to review the required bandwidth to support audio conferencing, video conferencing, and screen sharing in Microsoft Teams.
- An administrator named Admin6 must be able to review network issues that cause poor call quality reported by users.

Data Retention Requirements

Litware identifies the following data retention requirements:

- Requirement1: All messages in team collaborations must be deleted after seven years.
- Requirement2: all files used in team collaborations must be retained for five years.
- Requirement3: All files used in personal chats must be retained for five years.

Device Requirements

You provide Microsoft Teams-certified IP phones to users in the IT and R&D departments. Each device must meet the following requirements:

- The time zone on the phones used by the R&D department must be set to UTC-8.
- The time zone on the phones used by the IT department must be set to UTC-5.
- All phones must lock automatically after 60 seconds of inactivity.

Voice Pilot Requirements

Litware wants to pilot Phone System as a calling solution for 20 IT department users. The pilot project will receive phone numbers from Microsoft.

Collaboration and Meeting Requirements

Litware identifies the following collaboration and meeting requirements:

- Cloud recording must be disabled for all Microsoft Teams meetings organized by users in the HR departments only.
- Meeting email invitations must be customized to include the Logo URL, Legal URL, and Help URL of Litware.

QUESTION 1

HOTSPOT

You need to recommend a solution to perform the network validation tasks for the planned upgrade.

Which tool and role should you recommend for each user? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

| User name | Tool | Role |
|-----------|---|---|
| Admin5 | <div><div></div><div>Microsoft Call Quality Dashboard</div><div>Network Monitor</div><div>Network Planner</div><div>Network Testing Companion</div></div> | <div><div></div><div>Teams Communications Administrator</div><div>Teams Communications Support Engineer</div><div>Teams Communications Support Specialist</div></div> |

Explanation/Reference:

QUESTION 3

You need to configure the IP phones to meet the device requirements.

What is the minimum number of configuration profiles you should create?

- A. 1
- B. 2
- C. 3
- D. 4

Correct Answer: B

Section: (none)

Explanation

Explanation/Reference:

QUESTION 4

HOTSPOT

You need to configure Microsoft Teams to meet the department upgrade requirements.

For each of the following statements, select Yes if that statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Hot Area:

Answer area

| Statements | Yes | No |
|---|-----------------------|-----------------------|
| The Microsoft Teams upgrade policy must be set to Skype for Business with Teams collaboration and meetings coexistence mode for the sales department users. | <input type="radio"/> | <input type="radio"/> |
| The Microsoft Teams upgrade policy must be set to Skype for Business only coexistence mode for the HR department users. | <input type="radio"/> | <input type="radio"/> |
| The Microsoft Teams upgrade policy must be set to Teams only coexistence mode for the IT department users. | <input type="radio"/> | <input type="radio"/> |

Correct Answer:

Answer area

| Statements | Yes | No |
|---|----------------------------------|----------------------------------|
| The Microsoft Teams upgrade policy must be set to Skype for Business with Teams collaboration and meetings coexistence mode for the sales department users. | <input type="radio"/> | <input checked="" type="radio"/> |
| The Microsoft Teams upgrade policy must be set to Skype for Business only coexistence mode for the HR department users. | <input type="radio"/> | <input checked="" type="radio"/> |
| The Microsoft Teams upgrade policy must be set to Teams only coexistence mode for the IT department users. | <input checked="" type="radio"/> | <input type="radio"/> |

<https://docs.microsoft.com/en-us/microsoftteams/manage-external-access>

QUESTION 6

You need to create a team for the sales department.

What should you do first?

- A. Create an Office 365 group and modify the membership rule for the group.
- B. From PowerShell, run the `Add-AzureAdGroupMember` cmdlet.
- C. From PowerShell, run the `New-Team` cmdlet.
- D. Create a team and select **Build a team from scratch**.

Correct Answer: A
Section: (none)
Explanation

Explanation/Reference:

Reference:

<https://docs.microsoft.com/en-us/microsoftteams/dynamic-memberships>

QUESTION 7

DRAG DROP

You need to configure data retention policies for the teams. The solution must meet the data retention requirements.

Which content location should you include in the retention policies? To answer, drag the appropriate content locations to the correct requirements. Each content location may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Select and Place:

Content Locations

| |

Manage Chat, Calling, and Meetings

Question Set 1

QUESTION 1

HOTSPOT

Your company has a Microsoft Office 365 subscription.

The company has offices in France, United States, and Belgium.

You plan to implement Phone System to meet the following requirements:

- The office in Belgium must use SIP trunks from the current telecommunication provider.
- The office in France must integrate the phone number range and an on-premises IP-PBX.
- The office in the United States must minimize the infrastructure required to deploy the planned Phone System.

You need to recommend which PSTN connectivity meets the requirements.

Which PSTN connectivity should you recommend for each office? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

QUESTION 8

HOTSPOT

Your company has a Microsoft 365 subscription. You add guest users to the organization.

The company's global live event policy is configured as shown in the following exhibit.

| Global | |
|------------------------------------|--|
| Description | |
| Allow scheduling | <input checked="" type="checkbox"/> On |
| Allow transcription for attendees | <input checked="" type="checkbox"/> On |
| Who can join scheduled live events | Everyone in the organization |
| Who can record an event | Always record |

Use the drop-down menus to select the answer choice that completes each statement based on the information presented in the graphic.

NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

[Answer choice] can access live events.

| | |
|--|---|
| | ▼ |
| Users who have an Azure AD account, external access users, and guest users | |
| Only users who have an Azure AD account and external access users | |
| Only users who have an Azure AD account and guest users | |
| Only users who have an Azure AD account only | |

[Answer choice] can schedule live events.

| | |
|--|---|
| | ▼ |
| All users who have an Azure AD account | |
| All users who have an Azure AD account and guest users | |
| Only global administrators | |
| Only team owners | |

Correct Answer:

Answer Area

[Answer choice] can access live events.

| | |
|--|---|
| | ▼ |
| Users who have an Azure AD account, external access users, and guest users | |
| Only users who have an Azure AD account and external access users | |
| Only users who have an Azure AD account and guest users | |
| Only users who have an Azure AD account only | |

[Answer choice] can schedule live events.

| | |
|--|---|
| | ▼ |
| All users who have an Azure AD account | |
| All users who have an Azure AD account and guest users | |
| Only global administrators | |

QUESTION 9

Your company is upgrading from Microsoft Skype for Business Online to Microsoft Teams.

The company's Microsoft Teams upgrade policy is set to Islands coexistence mode. The company plans to maintain the coexistence mode for several months.

Several users report that they receive email messages about missed chat conversations.

You need to recommend a solution to ensure that all the users receive chat messages.

Which two actions should you recommend? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Install the Microsoft Teams clients on all the computers that run the Skype for Business client. Instruct the users to sign in to both client applications.
- B. Instruct the users to modify the permissions in the Microsoft Teams client.
- C. Modify the global app setup policy.
- D. Modify the global app permission policy.
- E. Install the Skype for Business client on all the computers that run the Microsoft Teams client. Instruct the users to sign in to both client applications.

Correct Answer: AE

Section: (none)

QUESTION 10

Your company has a Microsoft 365 subscription.

You need to ensure that users from a partner company named Contoso, Ltd. can collaborate with your company's users in teams. The solution must ensure that the Contoso users can exchange chat messages in channels.

Which three actions should you perform before you add the Contoso users to teams? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. From the Services & add-ins settings in the Microsoft 365 admin center, set Let group members outside the organization access group content to **On**.
- B. From the Guest access settings in the Microsoft Teams admin center, set Allow guest access in Microsoft Teams to **On**.
- C. From the External collaboration settings in the Azure Active Directory admin center, add Contoso's domain to the list of target domains.
- D. From the External access settings in the Microsoft Teams admin center, add Contoso's domain to the Allowed list of domains.
- E. From the External collaboration settings in the Azure Active Directory admin center, set Guest users permissions are limited to **No**.
- F. From the Services & add-ins settings in the Microsoft 365 admin center, set Let group owners add people outside the organization to groups to **On**.

Correct Answer: BDF

QUESTION 11

Your company has a Microsoft 365 subscription.

You recently set the company's Microsoft Teams upgrade policy to **Teams only** coexistence mode.

A user reports that several online meetings are configured to use Microsoft Skype for Business.

You need to convert the online meetings in the user's calendar to use Microsoft Teams.

What are two possible ways to achieve the goal? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. From PowerShell, run the `Start-CsExMeetingMigration` cmdlet and specify the `-identity` parameter.
- B. Run the Skype for Business Meeting Update tool.
- C. From the Microsoft Teams admin center, modify the meeting policy.
- D. From PowerShell, run the `Set-CsTeamsUpgradeConfiguration` cmdlet.
- E. From the Microsoft Teams admin center, modify the Microsoft Teams upgrade policy.

Correct Answer: AE

QUESTION 12

Your company has a Microsoft Office 365 subscription.

The company has the departments and teams shown in the following table.

| Department name | Team name |
|--------------------------|-----------|
| Human resources | HR |
| Research and development | R&D |
| Events | Events |

You need to ensure that only the following apps appear in the app bar of the Microsoft Teams client for only the events department:

- Activity
- Shifts
- Chat

What should you do first?

- A. Create a custom app permission policy.
- B. Modify the global app permission policy.
- C. Create a custom app setup policy.
- D. Modify the global app setup policy.

Correct Answer: C

QUESTION 17

You have a Microsoft 365 subscription. There are three users that are assigned the global administrator role.

You create an org-wide team named Team1.

You need to configure Team1 to meet following requirements:

- Ensure that only the three global administrators can create new posts in the General channel.
- Prevent @mentions for the org-wide team members.

Which two actions should you perform from the Microsoft Teams client? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. From the Team1 settings, clear **Give members the option to edit their messages**.
- B. From the General Channel settings of Team1, set the channel moderation preference to **Anyone can post; show alert that postings will notify everyone (recommended for large teams)**.
- C. From the General Channel settings of Team1, set the channel moderation preference to **Only owners can post messages**.
- D. From the Team1 settings, disable all the Fun stuff settings.
- E. From the Team1 settings, set Show members the option to @team or @[team name] to **Off**.

Correct Answer: CE

Testlet 2

Case study

This is a case study. **Case studies are not timed separately. You can use as much exam time as you would like to complete each case.** However, there may be additional case studies and sections on this exam. You must manage your time to ensure that you are able to complete all questions included on this exam in the time provided.

To answer the questions included in a case study, you will need to reference information that is provided in the case study. Case studies might contain exhibits and other resources that provide more information about the scenario that is described in the case study. Each question is independent of the other questions in this case study.

At the end of this case study, a review screen will appear. This screen allows you to review your answers and to make changes before you move to the next section of the exam. After you begin a new section, you cannot return to this section.

To start the case study

To display the first question in this case study, click the **Next** button. Use the buttons in the left pane to explore the content of the case study before you answer the questions. Clicking these buttons displays information such as business requirements, existing environment, and problem statements. If the case study has an **All Information** tab, note that the information displayed is identical to the information displayed on the subsequent tabs. When you are ready to answer a question, click the **Question** button to return to the question.

Overview

Contoso, Ltd. is a pharmaceutical company that has 3,000 users in offices across North America.

Existing Environment

Active Directory

The network contains an on-premises Active Directory domain. All user accounts are in departmental organizational units (OUs).

Microsoft Office 365

All users are assigned a Microsoft Office 365 E5 license and are enabled for the following services:

- Microsoft Yammer
- Microsoft Exchange Online
- Microsoft SharePoint Online
- Microsoft OneDrive for Business
- Azure Active Directory (Azure AD)
- Azure AD dynamic group membership

Microsoft Skype for Business

Contoso has an on-premises deployment of Microsoft Skype for Business Server 2015. All the latest cumulative updates are installed on all the servers. The following services are used in Skype for Business Server 2015:

- Meetings
- PSTN calling
- Instant messaging (IM)
- Federation to external companies

Departments

Contoso has the following departments:

- IT
- Sales
- Human resources (HR)
- Research and development (R&D)

All groups are created by using dynamic group membership that use the department attribute.

Requirements

Business Goals

Contoso identifies the following business goals:

- Migrate the maximum number of users to Microsoft Teams.
- Minimize administrative effort.

Device Requirements

Contoso identifies the following device requirements:

- Replace Skype for Business IP phones with Microsoft Teams phones.
- All Microsoft Teams phones must be set to lock automatically after 60 seconds.

Meeting and Live Event Requirements

Contoso identifies the following meeting and live event requirements:

- Requirement1: Guest users must be able to join live events.
- Requirement2: Guest users must always wait in a meeting lobby.
- Requirement3: Contoso users must always bypass the meeting lobby when they join meetings by using the Microsoft Teams client.
- Requirement4: After the upgrade to Microsoft Teams, all meetings must be scheduled by using Microsoft Teams.

Calling Requirements

Contoso identifies the following calling requirements:

- Migrate all existing auto attendants and response groups to Office 365.
- Minimize the on-premises PSTN infrastructure.

Technical Requirements

Guest users must be prevented from making private calls.

Security Requirements

Contoso has the following security requirements for the Microsoft Teams deployment:

- The number of ports allowed on the company's firewall must be limited.
- Team names must be prevented from containing the name of any products produced by Contoso.
- Users in the R&D group must be prevented from sending chat messages to users in other departments.
- To meet the company's compliance policy, users in the sales department must continue to use on-premises Skype for Business for IM and calling only.

Pilot Project

Contoso begins a pilot project for the upgrade to Microsoft Teams.

You identify the following issues during the pilot project:

- Microsoft Teams users report that they often receive continuous notifications from the Microsoft Teams client for 20 minutes.
- Two pilot users in the HR department report that they are not members of the HR team.

QUESTION 1

You need to resolve the notification issues identified during the pilot project.

What should you modify?

- A. the global meeting policy
- B. the global messaging policy
- C. the org-wide Teams settings
- D. the app permission policy

Correct Answer: A

Section: (none)

Explanation

Explanation/Reference:

Reference:

<https://docs.microsoft.com/en-us/microsoftteams/messaging-policies-in-teams>

QUESTION 2

You need to configure the environment to meet the technical requirements for guest users.

What should you modify from the Microsoft Teams admin center?

- A. the global app permission policy
- B. the Org-wide settings
- C. the global meeting policy
- D. the global messaging policy

Correct Answer: B

Section: (none)

Explanation

Explanation/Reference:

Explanation:

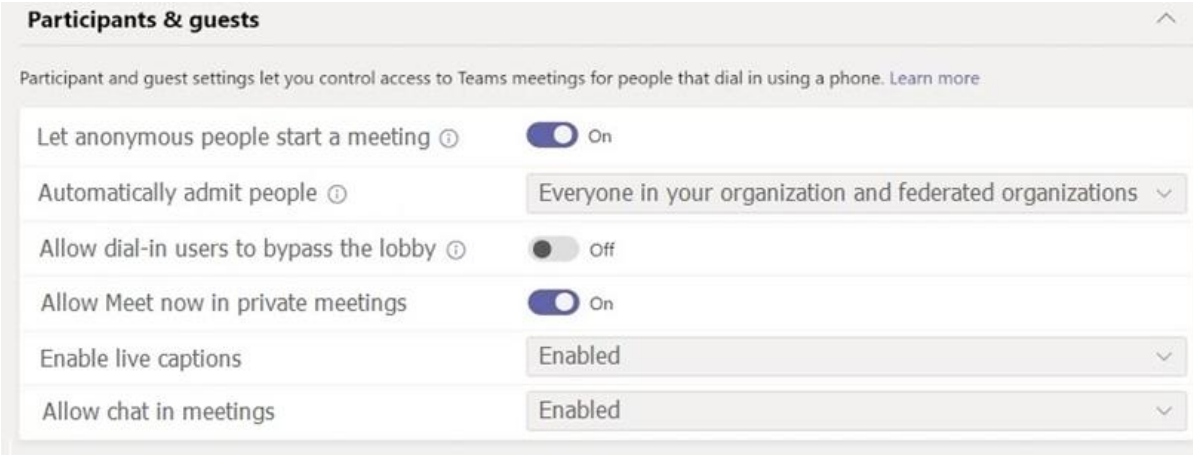

Microsoft Teams admin center > Org-wide settings > Guest access > Make private calls = off.

QUESTION 3

HOTSPOT

During the pilot project, you review the global policies in the Microsoft Teams admin center.

Contoso has a global meeting policy configured as shown in the following exhibit.

| Participants & guests | |
|---|---|
| Participant and guest settings let you control access to Teams meetings for people that dial in using a phone. Learn more | |
| Let anonymous people start a meeting ⓘ | <input checked="" type="checkbox"/> On |
| Automatically admit people ⓘ | Everyone in your organization and federated organizations ▾ |
| Allow dial-in users to bypass the lobby ⓘ | <input type="checkbox"/> Off |
| Allow Meet now in private meetings | <input checked="" type="checkbox"/> On |
| Enable live captions | Enabled ▾ |
| Allow chat in meetings | Enabled ▾ |

Contoso has a global live events policy configured as shown in the following exhibit.

Live events policies \ Global

Global

Description

Allow scheduling

Manage Chat, Calling, and Meetings

Testlet 3

Case study

This is a case study. **Case studies are not timed separately. You can use as much exam time as you would like to complete each case.** However, there may be additional case studies and sections on this exam. You must manage your time to ensure that you are able to complete all questions included on this exam in the time provided.

To answer the questions included in a case study, you will need to reference information that is provided in the case study. Case studies might contain exhibits and other resources that provide more information about the scenario that is described in the case study. Each question is independent of the other questions in this case study.

At the end of this case study, a review screen will appear. This screen allows you to review your answers and to make changes before you move to the next section of the exam. After you begin a new section, you cannot return to this section.

To start the case study

To display the first question in this case study, click the **Next** button. Use the buttons in the left pane to explore the content of the case study before you answer the questions. Clicking these buttons displays information such as business requirements, existing environment, and problem statements. If the case study has an **All Information** tab, note that the information displayed is identical to the information displayed on the subsequent tabs. When you are ready to answer a question, click the **Question** button to return to the question.

Overview

General Overview

Litware, Inc. is an international manufacturing company that has 4,000 users. The company has the following four departments:

- IT
- HR
- R&D
- Sales

Physical Locations

Litware has two main offices. The offices are located in New York and London.

All offices connect to each other by using a WAN link. Each office connects directly to the Internet.

Existing Environment

All user accounts have an Azure Active Directory Premium Plan P1 license.

Litware has a Microsoft 365 subscription that has Office 365 Enterprise E3 licenses for all users. All the E3 products and services are enabled for each user.

Litware uses Microsoft Skype for Business Online.

Requirements

Planned Upgrade

Litware identifies the following requirements for a planned upgrade from Skype for Business Online to Microsoft Teams:

- Provide high quality audio, video, and online meeting experience for Microsoft Teams end users.
- Implement a data retention solution in Microsoft Teams.
- Minimize costs and administrative effort.

- Use the principle of least privilege.

For the sales department, Litware plans to create a team that dynamically updates its membership when users leave and join the department.

Department Upgrade Requirements

Litware plans to implement upgrade requirements for the departments as shown in the following table.

| Department name | Requirement |
|-----------------|--|
| Sales | Must use Microsoft Teams and Skype for Business. Must receive incoming chats and calls by using the same client that initiated the communication. |
| HR | Must use Microsoft Teams for collaboration and meetings. Must maintain Skype for Business as the preferred client for chat and calling. |
| IT and R&D | Must use only Microsoft Teams for chat, meetings, calling, and collaboration. |

Microsoft Teams Requirements

All teams must meet the following requirements:

- Only users in a partner company that uses a domain named fabrikam.com must be able to collaborate in teams by using guest accounts.
- Only users in the compliance department of Litware must be able to create teams.

Planned Network Tasks

Litware identifies the following network validation tasks:

- An administrator named Admin5 must be able to review the required bandwidth to support audio conferencing, video conferencing, and screen sharing in Microsoft Teams.
- An administrator named Admin6 must be able to review network issues that cause poor call quality reported by users.

Data Retention Requirements

Litware identifies the following data retention requirements:

- Requirement1: All messages in team collaborations must be deleted after seven years.
- Requirement2: all files used in team collaborations must be retained for five years.
- Requirement3: All files used in personal chats must be retained for five years.

Device Requirements

You provide Microsoft Teams-certified IP phones to users in the IT and R&D departments. Each device must meet the following requirements:

- The time zone on the phones used by the R&D department must be set to UTC-8.
- The time zone on the phones used by the IT department must be set to UTC-5.
- All phones must lock automatically after 60 seconds of inactivity.

Voice Pilot Requirements

Litware wants to pilot Phone System as a calling solution for 20 IT department users. The pilot project will receive phone numbers from Microsoft.

Collaboration and Meeting Requirements

Litware identifies the following collaboration and meeting requirements:

- Cloud recording must be disabled for all Microsoft Teams meetings organized by users in the HR departments only.
- Meeting email invitations must be customized to include the Logo URL, Legal URL, and Help URL of Litware.

QUESTION 1

You need to identify the requirements for the voice pilot project.

Which two actions should you perform? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Assign an additional license and phone number to each user.
- B. Deploy a Session Border Controller (SBC) for Litware.
- C. Purchase a Calling Plan for each user.
- D. Create a dial plan for Litware.
- E. Purchase a Calling Plan for Litware.

Correct Answer: AC

Section: (none)

Explanation

Explanation/Reference:

QUESTION 2

You need to configure Microsoft Teams to meet the collaboration and meeting requirements.

Which two actions should you perform from the Microsoft Teams admin center? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Modify the Meeting settings.
- B. Create a teams policy.
- C. Create a meeting policy.
- D. Create a live events policy.
- E. Modify the Teams settings.

Correct Answer: AC

Manage Teams and App Policies

Question Set 1

QUESTION 1

You are a Microsoft Teams administrator for your company.

The company creates a new Microsoft Teams app named App1. A developer packages App1 as a ZIP file.

You need to ensure that App1 can be uploaded as a ZIP package to Microsoft Teams.

Which Apps setting should you turn on?

- A. Allow uploading custom apps.
- B. Enable new external apps by default.
- C. Enable default apps.
- D. Allow external apps in Microsoft Teams.

Correct Answer: A

Section: (none)

QUESTION 2

Your company has a Microsoft 365 subscription that uses Microsoft Teams.

You purchase an app named App1 from the Microsoft Teams Store.

You need to add App1 to the Microsoft Teams client for a specific group of users.

Which two actions should you perform from the Microsoft Teams admin center? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. From the Meeting settings, modify the Network settings.
- B. From App setup policies, create a new app setup policy.
- C. From App setup policies, modify the global app setup policy.
- D. From the properties of each user, edit the assigned policies.
- E. From the Org-wide settings, modify the Devices settings.

Correct Answer: BD

QUESTION 3

Your company has a Microsoft 365 subscription.

An administrator reports that teams were deleted accidentally today.

You need to restore the teams as quickly as possible.

Which cmdlets should you run?

- A. `Get-AzureADMSDeletedGroup` and `Restore-AzureADMSDeletedDirectoryObject`
- B. `Get-Team` and `Restore-ADObject`
- C. `Get-AzureADMSDeletedGroup` and `Restore-ADObject`
- D. `Get-AzureADGroup` and `Restore-AzureADMSDeletedDirectoryObject`
- E. `Get-Team` and `Restore-AzureADMSDeletedDirectoryObject`

Correct Answer: A

QUESTION 4

Your company has a Microsoft 365 subscription that contains 200 Microsoft Teams users and 20 teams.

You discover that several teams do **NOT** have an owner.

You need to ensure that you receive a notification when a team is missing an owner.

What should you do?

- A. From the Microsoft Teams admin center, modify the Teams settings.
- B. From PowerShell, run the `Set-Team` cmdlet.
- C. From the Azure Active Directory admin center, configure access reviews.
- D. From PowerShell, run the `Add-AzureADMSLifecyclePolicyGroup` cmdlet.

Correct Answer: A

Section: (none)

Explanation

Explanation/Reference:

QUESTION 5

Your company has a Microsoft 365 subscription that uses Microsoft Office 365 E5 licenses and Azure Active Directory Premium Plan 1 licenses.

You have a team named Sales that contains all the users in the company's sales department.

You hire several new users in the sales department.

You discover that the new employees are never added to the team.

You need to ensure that when new sales department users are hired, they are added automatically to the team.

What should you do?

- A. From the Microsoft Teams client, modify the settings of the Sales team.
- B. From the Azure Active Directory admin center, modify the membership type of the Sales group.
- C. From the Microsoft Teams admin center, modify the properties of the Sales team.
- D. From the Microsoft 365 admin center, modify the settings of the Sales group.

Correct Answer: B

QUESTION 6

Your company has a Microsoft 365 subscription.

The company's global app permission policy is configured as shown in the following exhibit.

App permission policies \ Global

Global
Description Org-wide app settings

Microsoft apps
Choose which Teams apps published by Microsoft or its partners can be installed by your users.

☒ Allow all apps

Third-party apps
Choose which Teams apps published by a third-party that can be installed by your users.

☒ Allow specific apps and block all others

+ Add apps × Remove 1 Item

| ✓ | Allowed apps | App ID | Distributor |
|---|--------------|--------------------------------------|-----------------|
| ✓ | Who | fc6b6d20-89ed-45fb-9e62-e4b4ca8fbf3f | Microsoft Corp. |

Tenant apps
Choose which Tenant apps can be installed by your users.

☒ Allow all apps

Users report that they can view the list of available third-party apps from the Microsoft Teams client.

You need to ensure that the Who app is the only visible app from the Microsoft Teams client.

What should you modify?

- A. the Org-wide app settings
- B. the global app permission policy
- C. the global app setup policy
- D. the global teams policy

Correct Answer: A

QUESTION 7

DRAG DROP

Your company uses Microsoft Teams.

You are planning the compliance strategy for Microsoft Teams. All compliance tasks must be performed by a user in the compliance department who will be assigned the Global admin role and will not be a team owner.

You need to identify which tools to use for the following tasks:

- Archive a team.
- Restore a deleted team.
- Permanently delete a team.

Which tool should you identify for each task? To answer, drag the appropriate tools to the correct tasks. Each tool may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Select and Place:

| Tools | Administration tasks |
|---|---------------------------------|
| The Microsoft Teams admin center | Restore a deleted team: Tool |
| The Azure Active Directory admin center | Archive a team: Tool |
| The Microsoft Teams desktop client | Permanently delete a team: Tool |

Correct Answer:

| Tools | Administration tasks |
|---|---|
| The Microsoft Teams admin center | Restore a deleted team: The Azure Active Directory admin center |
| The Azure Active Directory admin center | Archive a team: The Microsoft Teams admin center |
| The Microsoft Teams desktop client | Permanently delete a team: The Microsoft Teams admin center |

Section: (none)

QUESTION 8

Your company has a Microsoft 365 subscription that contains a team named Sales.

You need to recommend a solution to ensure that all guest users who are members of Sales receive an email message each year to verify that they want to remain in the team.

What should you include in the recommendation?

- A. an identity provider
- B. a Microsoft Outlook add-in
- C. a supervision policy
- D. an access review

Correct Answer: D

Section: (none)

Explanation

Explanation/Reference:

QUESTION 9

HOTSPOT

Your company has a Microsoft Office 365 subscription.

The company has three departments. Each department contains a group as shown in the following table.

| Department name | Type |
|-----------------|--------------------|
| HR | Distribution |
| R&D | Global security |
| Sales | Universal security |

You plan to create a team for each group.

You need to ensure that a team can be created for each group. The solution must minimize administrative effort.

What should you do to each group? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

HR:

| | |
|--|---|
| | ▼ |

Testlet 2

Case study

This is a case study. **Case studies are not timed separately. You can use as much exam time as you would like to complete each case.** However, there may be additional case studies and sections on this exam. You must manage your time to ensure that you are able to complete all questions included on this exam in the time provided.

To answer the questions included in a case study, you will need to reference information that is provided in the case study. Case studies might contain exhibits and other resources that provide more information about the scenario that is described in the case study. Each question is independent of the other questions in this case study.

At the end of this case study, a review screen will appear. This screen allows you to review your answers and to make changes before you move to the next section of the exam. After you begin a new section, you cannot return to this section.

To start the case study

To display the first question in this case study, click the **Next** button. Use the buttons in the left pane to explore the content of the case study before you answer the questions. Clicking these buttons displays information such as business requirements, existing environment, and problem statements. If the case study has an **All Information** tab, note that the information displayed is identical to the information displayed on the subsequent tabs. When you are ready to answer a question, click the **Question** button to return to the question.

Overview

Contoso, Ltd. is a pharmaceutical company that has 3,000 users in offices across North America.

Existing Environment

Active Directory

The network contains an on-premises Active Directory domain. All user accounts are in departmental organizational units (OUs).

Microsoft Office 365

All users are assigned a Microsoft Office 365 E5 license and are enabled for the following services:

- Microsoft Yammer
- Microsoft Exchange Online
- Microsoft SharePoint Online
- Microsoft OneDrive for Business
- Azure Active Directory (Azure AD)
- Azure AD dynamic group membership

Microsoft Skype for Business

Contoso has an on-premises deployment of Microsoft Skype for Business Server 2015. All the latest cumulative updates are installed on all the servers. The following services are used in Skype for Business Server 2015:

- Meetings
- PSTN calling
- Instant messaging (IM)
- Federation to external companies

Departments

Contoso has the following departments:

- IT
- Sales
- Human resources (HR)
- Research and development (R&D)

All groups are created by using dynamic group membership that use the department attribute.

Requirements

Business Goals

Contoso identifies the following business goals:

- Migrate the maximum number of users to Microsoft Teams.
- Minimize administrative effort.

Device Requirements

Contoso identifies the following device requirements:

- Replace Skype for Business IP phones with Microsoft Teams phones.
- All Microsoft Teams phones must be set to lock automatically after 60 seconds.

Meeting and Live Event Requirements

Contoso identifies the following meeting and live event requirements:

- Requirement1: Guest users must be able to join live events.
- Requirement2: Guest users must always wait in a meeting lobby.
- Requirement3: Contoso users must always bypass the meeting lobby when they join meetings by using the Microsoft Teams client.
- Requirement4: After the upgrade to Microsoft Teams, all meetings must be scheduled by using Microsoft Teams.

Calling Requirements

Contoso identifies the following calling requirements:

- Migrate all existing auto attendants and response groups to Office 365.
- Minimize the on-premises PSTN infrastructure.

Technical Requirements

Guest users must be prevented from making private calls.

Security Requirements

Contoso has the following security requirements for the Microsoft Teams deployment:

- The number of ports allowed on the company's firewall must be limited.
- Team names must be prevented from containing the name of any products produced by Contoso.
- Users in the R&D group must be prevented from sending chat messages to users in other departments.
- To meet the company's compliance policy, users in the sales department must continue to use on-premises Skype for Business for IM and calling only.

Pilot Project

Contoso begins a pilot project for the upgrade to Microsoft Teams.

You identify the following issues during the pilot project:

- Microsoft Teams users report that they often receive continuous notifications from the Microsoft Teams client for 20 minutes.
- Two pilot users in the HR department report that they are not members of the HR team.

QUESTION 1

You need to resolve the membership issues for the two pilot users.

What should you do?

- A. Modify the department attribute of both users.
- B. Invite both users to the HR team.
- C. Add both users to the HR group.
- D. Modify the privacy level of the HR team.

Correct Answer: A

Section: (none)
